5-6 EDWARD VII., A. 1906

The statement of the number of officers now serving and subject to the Civil Service Superannuation Act has been continued to June 30 last. The number of those coming under the operation of the old Superannuation Act has fallen from 2,176 in 1904 to 2,100 in 1905.

Interest has not been received during the year on account of the following investments :—

Albert Railway Company.

Three Rivers Harbour Commission.

Quebec Harbour Commission.

Fredericton and St. Mary's Bridge Company.

The differences arising out of the accounts between the Government of the Dominion and the governments of the provinces of Ontario and Quebec, which have been referred to in previous reports, are advancing toward settlement. The question of the right of the Dominion to pay a reduced rate of interest to Ontario and Quebec on certain funds held by the Dominion on their behalf has been submitted to the Exchequer Court. The case has been heard and judgment is expected very shortly. With respect to the claim under Treaty No. 3, a date has been fixed for a hearing by the same tribunal. It is a decided step towards a final settlement to have these cases advanced thus far, and barring the question of appeals to higher courts they may be considered as in the way to be quickly disposed of. A matter of minor importance with the province of Quebec, concerning a payment on account of the Yule Bridge, will be arranged on January 1, next.

In the business of the department a steady increase has taken place. During the year under review the turn over in cash in Canada has exceeded that of the year ended June 30, 1904, by the sum of \$6,960,578. The note circulation has advanced to \$47,334,221, or an increase over last year of \$5,759,438 with a corresponding increase in the amount of gold held under the control of the Finance Department. As pointed out last year, the department, in one respect, occupies in Canada a position analogous to that of the Bank of England in Great Britain as the custodian of the reserve of gold.

The year 1904-5 has been characterized throughout the whole of the Dominion by a wonderful degree of prosperity. It will be seen from the accounts now published how the public revenues have increased. In all other particulars such as the Railway Traffic receipts, Immigration, the Bank clearings and in the deposits in the Chartered Banks, a wonderfully steady progress has taken place. The increase in the public deposits held in the Chartered Banks averages over \$1,000,000 a week. The amounts held on deposit now amount to over \$500,000,000. It is a cause of satisfaction to know that the Dominion loans in Great Britain maintain their high position. The quotations, compared with those of other high class securities, are very satisfactory. During the preceding fiscal year ended June 30, 1904, the sum of £3,800,000 or \$18,493,333.34 of

SESSIONAL PAPER No. 2

maturing loans of the Dominion was paid off. On the 1st November, 1905, since the close of the Public Accounts, another loan of £1,000,000 or \$4,866,666.66 matured, and has also been paid. It is only right, however, to point out that during the next seven years, as shown by the following statement, loans to the extent of £29,418,218 17s. 2d. or \$143,168,665.13 will have to be refunded. Of this amount £27,718,000 17s. 2d. or \$134,895,331.79 will have to be refunded during years from 1906 to 1910. Against this large sum Sinking Funds, to the value of £9,732,536 3s. 11d. or \$47,365,008.42, all in Canadian securities, were held on November 30, 1905. In making provision for the future, these large sums, which mature at so early a period, will have to be taken into consideration. After these have been refunded no further loans will mature until 1938.

In the Public Accounts of 1904, mention was made of the expansion of the money order business of the Dominion, an expansion evidently caused in a great measure by immigrants remitting to friends and relatives in the countries of their birth. This expansion is still in evidence and is particularly noticeable in the money orders issued in Canada and paid in the United Kingdom, which in 1900 amounted to \$928,665 and in the last year to \$2,180,446; and in the orders paid in the United States, which in 1900 amounted to \$1,680,617 and in the last year to the large sum of \$4,500,884. The money orders issued in Canada payable in Italy in 1900 amounted to \$59,999, and in the last year to the largely increased sum of \$768,320. The whole amount of money orders issued in Canada payable in other countries has advanced from \$3,060,548.82 in 1900 to \$8,938,991.14 in 1905.

5-6 EDWARD VII., A. 1906

In all the various features of the departmental work increases are shown. There are increased references to the Treasury Board, increased correspondence, increased note circulation, in fact, increased work all round.

Since the close of the fiscal year Mr. C. W. Treadwell, secretary of the department, has retired, and Mr. John Fraser, Dominion bookkeeper, has been appointed Auditor General. These two officials were of great service in the work of the department. To fill the vacancies, Mr. T. C. Boville, chief clerk in the department, has been made secretary, and Mr. J. R. Forsyth, who has had several years experience under a Provincial government, has been brought into the department as a first class clerk. To cope with the work, however, the staff needs strengthening and, as I have referred to more than once, to obtain the services of good men to do the work and to assume the responsibility attached thereto, sufficient inducement should be given. In these days with the competition of banks and railways, it is difficult to replace the higher public servants who have left the service. In filling the vacancies the utmost liberality should be exercised.

Last year and the year before I made reference to my retirement. I have held on at your request, but the time has now come when the question of a successor should be seriously taken into consideration. In the responsibilities that are daily being laid on the department no time should be lost in making an appointment. As I have previously mentioned, I shall be very glad at any time to render any assistance or give any information in my power.

I think it only right to tender my hearty thanks to the officers of the department who have been of the greatest possible assistance during a time when much pressure was placed upon them.

Before concluding this report I have to mention one other subject. It is a source of satisfaction to me that the Government has decided that the date of the termination of the fiscal year should be changed from June 30 to March 31. This fulfils a desire that I have had ever since I entered the public service over 36 years ago. In 1877, a bill to that effect was introduced in Parliament, but through difficulties which arose it was not passed. Subsequently in the year 1892 the Royal Commission, appointed to make enquiries into the administration of the Civil Service at Ottawa, in their report at page LV., drew attention to the subject, and after going fully into the matter stated that "In the opinion of your Commissioners it would be advisable, "from a business point of view, to effect an alteration so as to bring the termination "of the fiscal year to the 31st March. This arrangement would, it is believed, give "Parliament a better control over the expenditure for the year, and in the nature of "things necessitate more prompt attention to public business; it would enable the several "reports to be placed in the hands of the members of Parliament at the commencement "of the session, if not earlier, and in general would, it is believed, produce a beneficial "effect. In support of which it may be stated that the accounts of the Imperial "Government for the year ending the 31st March last, were all closed in sufficient time "to enable the Chancellor of the Exchequer to review the same in his budget speech "delivered on April 11." While in 1878 and 1891 this matter was brought before Parliament, time and experience further show the great difficulty that arises from having the year terminate in the middle of the working season. The date March 31 has been the close of the fiscal year in Great Britain since the year 1854. It may be said

SESSIONAL PAPER No. 2

that although the experience of Great Britain has shown for fifty years that the date March 31 is best suited for its requirements, the 30th June is still maintained as the end of the fiscal year in the United States. I find, however, on examination of the public documents of the United States, that many of the highest officials have occasionally made reports to Congress that the date, 30th June, was not the best to be desired, and in the report of the Secretary of War in 1874, a recommendation was made to have the date changed.

I have the honor to be, Sir,

Your obedient servant,

J. M. COURTNEY,

Deputy Minister of Finance.
